

Year 4 - Spring One 2025

Value of the half term: Love

As **Readers:** We will be reading the story, *The Wild Way Home* by Sophie Kirtley. We will be developing our retrieval and inference skills and exploring new vocabulary.

As **Writers:** (*Wild Way Home*—missing persons report and suspense writing) Using the book *The Wild Way home* as our inspiration, we will be writing a 'missing person' report and our own suspense stories across Spring 1.

As **Geographers:** We will be exploring where our food comes from and how our food choices impact our environment. To do this we will be calculating food miles as well as considering how fair trade helps to support producers in other countries. Closer to home, we will be looking at where the ingredients in our school dinners are sourced and interviewing a member of staff.

As **Mathematicians:** We will continue to use formal methods to multiply and divide before moving on to learning to calculate length and perimeter.

As **Scientists:** We will explore the bodies of humans and other animals to see how our skeletons support us, protect us and help us to move. We also learn about how muscles work, why they are important and how we couldn't live without them. We complete this unit by dissecting owl pellets, investigating the diet of these creatures and build a skeleton using what we discover.

As **Artists:** We will learning about the artist, Alberto Giacometti and through the inspiration of his work, we will be creating a silhouette sculpture using wire, tape and paint. Our sculptures will also be influenced by our bones and muscles science theme.

Growing together

Opportunities for all

Learning for life

Daring to dream
